

Computing Year 3

Summer 2

Media

Key Vocabulary:

Clip - a small piece of motion-picture film

Copyright - the right and ownership which protects things like books, art, music and films, as soon as they are written down or recorded

Resize - to change the height, size or width

Rotate - moving things around a fixed point

Duplicate- anything that is an exact copy of another thing

Key Questions:

What is a 2d plan?

What is 3d design?

Key Facts:

A 2d plan is called a plan view or a bird's eye view.

3D design software allows us to create objects in 3D such as characters in films and games.

Visual media clips do not have to be created in the sequence they might appear in the final visual media production.

2-d plan

3-d plan
