

## Computing Year 1

### Autumn 1

## Computer Science

### Key Vocabulary:

Algorithm - a set of step-by-step instructions that describe how to perform a task

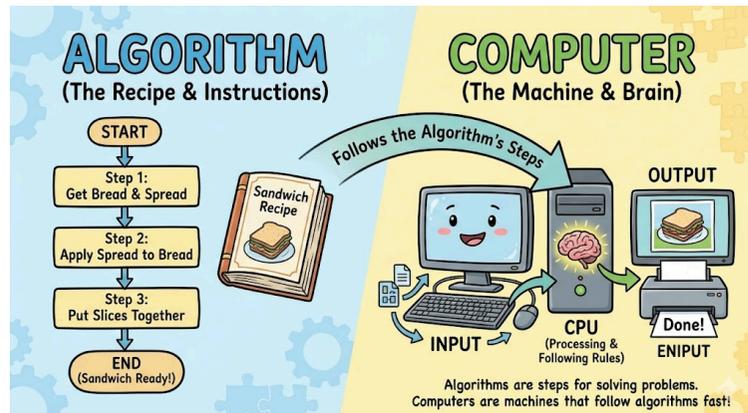

Debug - when you find a problem in the program and fix it

Computer - an electronic device that is used for storing and processing information.

### Key Questions:

What is an algorithm?

How do the controls affect the device?

### Key Facts:

Digital devices work by processing information based on a sequence of instructions called a program.
